Professional Summary

Creative and detail-oriented UI/UX Designer with hands-on experience in delivering intuitive, engaging, and user-centered digital experiences. Proficient in modern design tools including Figma, Adobe XD, Adobe Illustrator, Photoshop, and Canva. Demonstrated expertise in complete design process from wireframing and prototyping to user research, usability testing, and responsive design implementation. Passionate about combining aesthetic excellence with functional usability to drive user engagement and business objectives.

Education

COMSATS University Islamabad, Sahiwal Campus — Sahiwal, Pakistan

Bachelor of Science in Computer Science — *Feb. 2022 – Jan. 2026*

- Built strong technical foundation in software development, algorithms, data structures, and user interface design principles
- Completed academic projects including mobile app prototypes, responsive web designs, and system analysis
- Gained proficiency in modern design tools through coursework and self-directed learning

Experience

Freelance UI/UX Designer — Jan. 2025 – Present

Remote — *Pakistan*

- Designed 15+ responsive landing pages and mobile app mockups for small business clients across various industries
- Created comprehensive wireframes and interactive prototypes using Figma, reducing client feedback cycles by 40%
- Conducted 20+ user research sessions and feedback iterations to validate design decisions and improve usability
- Developed responsive layouts optimized for mobile, tablet, and desktop ensuring 100% accessibility across devices

UI/UX Design Intern — Jan. 2026 – Mar. 2026

Content Arcade — *Faisalabad, Pakistan*

- Designed user interfaces, wireframes, and visual layouts for 8+ digital products including mobile and web platforms
- Created modern, user-friendly interfaces using Figma with emphasis on usability, layout consistency, and visual hierarchy
- Collaborated with 4-member design team conducting design reviews and implementing iterative improvements
- Contributed to design system development establishing reusable components and design tokens

Graphic Design Intern — Aug. 2025 – Oct. 2025

Ampflick — *Remote*

- Created 50+ visually compelling designs using Canva and Figma for landing pages and social media campaigns
- Designed comprehensive UI mockups and branding materials following established design guidelines
- Mastered layout design principles, advanced color theory, and typography implementation
- Translated complex client requirements into clean, user-friendly visual solutions
