PROFESSIONAL SUMMARY

Fresh IT graduate and Front-End Developer Intern with hands-on industry experience building responsive websites from scratch. Skilled in HTML5, CSS3, JavaScript, and PHP. Passionate about clean UI design, mobile-first development, and writing maintainable code. Seeking a remote front-end developer role where I can contribute real value and grow quickly.

WORK EXPERIENCE

Front-End Developer Intern

Hasnain Karimain Software House | Mar 2025 – Present

- Build complete websites from scratch based on client briefs assigned by the team.
- Develop responsive, cross-browser compatible interfaces using HTML5, CSS3, and JavaScript.
- Collaborate with the internal team to deliver projects on time and to specification.

TECHNICAL SKILLS

Languages & Markup:	HTML5, CSS3, JavaScript (ES6+), PHP
Database:	MySQLi
Styling & Layout:	CSS Grid, Flexbox, Responsive & Mobile-First Design
Tools & Workflow:	Git, GitHub, VS Code, Browser DevTools
Principles:	UI/UX Design, Cross-Browser Compatibility, ATS-Optimized Code

PROJECTS

NexGen Agency Website — *github.com/Aqsa-00/nexgen-webpage*

HTML5 · CSS3 · JavaScript · PHP

- Built a fully responsive multi-page agency website (Home, About, Services, Contact) using vanilla HTML/CSS/JS.
- Implemented a PHP newsletter subscription script with form validation and backend integration.
- Engineered a mobile hamburger menu with CSS transitions and JavaScript toggle logic.
- Resolved complex CSS Grid layout bugs for tablet breakpoints, ensuring pixel-accurate responsiveness.

AstrowFlow — SaaS Landing Page — *github.com/Aqsa-00/astrowflow-landing-page*

HTML5 · CSS3 · JavaScript

- Built an elegant, high-impact landing page for a specialized SaaS product with a premium visual aesthetic.
- Focused on seamless user flows and interactive elements to drive engagement and conversions.
- Implemented smooth scroll animations and responsive layout optimised for all screen sizes.

Agrosense System — Agricultural Management Platform — *github.com/Aqsa-00/agrosense-system*

HTML5 · CSS3 · JavaScript

- Developed a real-time agricultural data dashboard with intuitive resource tracking UI.
- Focused on data visualisation components and a clean, information-dense layout.

Team Members Webpage — *github.com/Aqsa-00*

HTML5 · CSS3 · JavaScript

- Implemented CSS Grid layout, dark mode toggle, role-based filtering, debounced search, and modal system.
- Used IntersectionObserver API for scroll-triggered animations, demonstrating advanced JavaScript skills.
