AIMAN HAROON

ELECTRICAL ENGINEER

03425188959 | Lahore , Pakistan | aimanharoon.engr@gmail.com

ABOUT ME

Electrical Engineer specializing in power systems with hands-on experience in transmission networks, protection systems, and power system simulations. Seeking to contribute technical expertise in electrical design and power system analysis to a growth-oriented organization.

EDUCATION

2023 - present
UET.Lahore
Master of Science in Electrical Engineering (Power)

2019 - 2023
GCU.Lahore
Bachelors of Science in Electrical Engineering

EXPERIENCE

July 2022-August 2022
Internship
NTDC

- Gained practical exposure to 220kV grid stations including Wapda Town and Shalimar stations
- Studied power transmission systems, grid operations, and protection mechanisms
- Analyzed relay protection systems and circuit breakers in high-voltage environments
- Assisted in understanding network architecture and operational standards

Jan 2025-May 2025
Research Assistant
LUMS

- Prepared technical reports and documentation for research outcomes
- Performed literature reviews to identify trends in power engineering

Jan 2025-May 2025
Teaching Assistant
LUMS

- Supported course delivery through assignment preparation and grading
- Assisted in exam design and student evaluation

PROJECTS

- Final Year Project
  - Development of a sensor network for the Detection of pollutants from WTE project
- Semester
  - Sumpner Test on Three-Phase Transformer
  - Ball & Beam Control System (Arduino)
  - FM Transmitter Design
  - Three-Phase Transformer Configurations

SKILLS

SOFTWARE SKILLS

- MATLAB & Simulink
- PSCAD
- Power World Simulator
- AutoCAD
- SketchUp

ANALYTICAL SKILLS

- Research & Analysis
- Project Management
- Technical Reporting

CERTIFICATES

- Graph Neural Networks (GNNs): Scratch to Cutting Edge
- Metaverse: Digital Twins, NFTs, Meta QR & Deep Fakes
- Generative Adversarial Networks (GANs) – AI in Bioinformatics & IT
- Internship Certificate – NTDC
- Seminar Participation Certificate – GCU Lahore
