PROFESSIONAL SUMMARY

Highly analytical Cybersecurity and Digital Forensics professional with cross-functional expertise in technical project management and strategic digital marketing. Adept at evaluating system vulnerabilities, conducting threat analysis, and leveraging AI technologies to build secure, scalable solutions. Proven track record of leading cross-functional teams, orchestrating high-impact campaigns, and delivering comprehensive technical reporting to mitigate risks and drive operational excellence.

EDUCATION

Bachelors of digital Forensics and Cyber Security **2022-2026**
Lahore Garrison University DHA Phase 6, Lahore

FSC-ICS (Physics) **2020-2022**
Garrison College for Girls Cantt

WORK EXPERIENCE

Quality Assurance | National Centre of Artificial Intelligence (NCAI) **April 2026– June 2026**
Intern UET Lahor4e

- Spearheaded Quality Assurance (QA) testing and comprehensive technical documentation for an AI-integrated cybersecurity training simulator during the 2026 internship cohort.
- Evaluated system architecture and user interfaces for a Python Flask, SQLite, and Langchain-based web application, ensuring optimal performance, usability, and offline resilience.
- Validated API endpoints and verified dynamic risk-scoring algorithms to guarantee the accurate classification of security threats and user awareness metrics.

Digital Marketing Specialist (Freelance) | Real Estate Sector **August 2024 - October 2024**
Digital Marketer

- Directed end-to-end digital advertising campaigns, successfully generating high-quality, targeted leads.
- Optimized audience targeting algorithms and ad creatives to maximize user engagement and drive measurable conversion rates.
- Administered ad budgets utilizing data-driven market analysis to ensure cost-effective reach and maximize Return on Investment (ROI).

Digital Marketing Lead (Freelance) | Footwear Brand **September 2024 - November 2024**
Employer Remote

- Architected and executed social media marketing strategies to accelerate brand awareness and product sales across Facebook, Instagram, and Google Ads.
- Conducted rigorous performance tracking and consumer behaviour analysis to iteratively refine campaign reach and customer engagement metrics.

PROJECTS

NeuroShield **November 2025–June 2026**

- Engineered and successfully defended an advanced, AI-driven Web Application Firewall (WAF) designed to proactively intercept cyber threats.
- Integrated LightGBM and LLaMA-3 models into the backend architecture to automate sophisticated threat detection and real-time security analysis.
- Architected data pipelines to generate in-depth forensic reports, significantly enhancing incident response times and threat mitigation capabilities.

Protect Kids Simulator (PoC) **April 2025–June 2026**

- Collaborated on the full-stack development of an AI-powered educational cybersecurity platform designed to mitigate social engineering, credential theft, and phishing threats.
- Facilitated the implementation of a multi-tiered, role-based access architecture (Student, Parent, Teacher) integrating a centralized risk-scoring engine for proactive threat monitoring.
- Assisted in structuring a gamified learning environment utilizing an AI explanation engine to deliver adaptive, context-aware cybersecurity feedback.

TECHNICAL SKILLS

Languages | Python, C++, HTML5, CSS3, JavaScript, C++
Frameworks | Flask
Developer Tools | Git, Visual Studio Code, VS Code, SQLite, Linux, Cursor, Firebase
Libraries | Pandas, NumPy, Matplotlib, Langchain, Flask-CORS, LightGBM, LLaMA-3

Certification

Digital Marketing & SEO | Dankash Johar Town
