Preeti Lilaram (SNU)

Available Immediately. 03002582915 · Lilaram.preeti@gmail.com · Portfolio

My background in applied mathematics trained me to identify structure in complexity, which directly shapes how I approach design systems and branding. I look for the repeating patterns, the inconsistencies, and the places where abstraction breaks down for the user.

Skills

Design & Prototyping: Figma, Framer, Sketch, Adobe XD
AI-Augmented Design: Prompt engineering, Claude, ChatGPT, AI-accelerated design-to-prototype workflows with Figma Make
Research & Validation: User research, assumption testing, usability studies, competitive audits
Metrics & Iteration: Data/statistical analysis, success metric definition, iterative design based on results.

Education

Bachelor of Science in Applied Mathematics
University of Manitoba, Canada 2023-28
Studying introductory theoretical and applied mathematics with economics, probability, and financial accounting.

Google UX Professional Certification
Institute of Emerging Careers (IEC) 2022

Work Experience

UX/UI Design (Freelance)
November 2022-Present

- Utilised Framer and Figma to create a personal mvp portfolio by dissecting existing portfolios with similar niches (special focus on user journey, readability, spacing, and copy redundancy).
- Utilized AI tools to validate user experience choices and leveraged prompt engineering to accelerate the design-to-prototype workflow.
- Commissioned to create branding & marketing material for 3 separate clients, via thorough research of market competitors, psychology behind brand colors, and brand focused copy (see projects here.
- Created letter-heads, business cards, logo concepts using Figma, Adobe XD, and Sketch.

Diploma Manager / Program Officer
NJV Art & Design Diplomas, June 2026-Present

- Independently owned end-to-end diploma program intake operations, managing outreach to organizations, qualifying leads, and admitting students through to enrollment with no dedicated support staff.

- Built Zapier automation workflows to streamline lead generation and applicant communication, reducing manual follow-up time across the admissions pipeline.
- Developed and executed a multi-channel awareness strategy: content calendar, social media, in-person community events, and faculty-wide initiatives to drive program visibility.
- Served as the primary point of contact for student-department communications and conducted financial aid interviews, managing sensitive conversations with professionalism and consistency.
- Designed and maintained a diploma program setup timeline coordinating across faculty, administration, and incoming students to keep intake on schedule.

UX/UI Design Intern
Mudirr, November 2022-January 2023

- Owned UX improvements for project management software end to end: running user interviews, journey mapping, and competitive analysis to define problems, explore solutions, and align design decisions with measurable user and stakeholder outcomes.
- Enhanced market knowledge by conducting thorough analysis of ZohoCRM and Fiverr Workspace, increasing user insights and informed design decisions.
- Applied User-Centered Design (UCD) to make design decisions for smooth customer experience and make web products accessible, aesthetic, and functional (adhered to mathematical alignment & spacing, used web standard accessibility tests with regular critique and iteration).

Research Intern
NJV Govt. Higher Secondary School, Karachi, September 2020-March 2021

- Coordinated with Iqra University students to successfully integrate a nonprofit agenda into their capstone projects at Akhuwat NJV.
- Utilized design skills to create visually appealing sessions for 50+ High School students, leading to improved retention and participation.
- Promoted global competency in SAT and IELTS Test prep through personalized test prep plans, 1 on 1 mentoring, and promoting academic integrity and global readiness.
