FRONT-END DEVELOPER

I'm Ebad Shykh, a passionate self-taught Front-End Developer and Video Editor who enjoys building clean, user-friendly, and creative digital experiences. I have a strong focus on JavaScript, React, UI/UX, and modern web development. Alongside development, I create and edit professional-quality videos using industry-standard tools such as Adobe Premiere Pro, Adobe After Effects, and CapCut. I'm also passionate about content creation and enjoy producing engaging visual content and sharing knowledge to inspire others to learn and grow. My dedication to martial arts and calisthenics has strengthened my discipline, focus, and resilience—qualities I bring into both my technical and creative work.
