01. PROFESSIONAL EXECUTIVE SUMMARY

Driven Computer Science undergraduate (4th Semester) and experienced Sales & Operations Executive with a proven track record in global client acquisition, cross-functional project execution, and technical problem-solving. Possesses robust hands-on experience in software development fundamentals (C++, Java, Python, JavaScript), database architectures, and international customer relations. Recognized for high operational agility, strategic communication, and blending technical knowledge with commercial operations to consistently deliver high-impact results.

02. WORK & OPERATIONAL EXPERIENCE

International Customer Support Executive
APR 2024 – MAR 2025

Portal Tech | Karachi, Pakistan

- Managed end-to-end voice support operations and complex technical query resolution for global enterprise clients.
- Optimized support workflows and issue escalation trees to achieve a 94%+ First Call Resolution (FCR) rate.
- Partnered with cross-functional technical teams to troubleshoot system bottlenecks and streamline user onboarding.

HR & Account Operations Specialist
AUG 2023 – MAR 2024

Chapter and Verse School | Karachi, Pakistan

- Directed daily administrative operations, payroll processing, staff records, and routine financial ledger management.
- Implemented structured digital reporting frameworks that increased departmental data accuracy and auditing speed.

International Customer Support Representative
MAY 2023 – JAN 2024

Iflogics | Karachi, Pakistan

- Handled high-volume inbound/outbound client communications across international markets with high retention ratings.
- Analyzed operational feedback patterns to recommend service delivery improvements to senior management.

International Sales Executive
FEB 2022 – NOV 2022

Pop Alpha | Karachi, Pakistan

- Executed targeted cold calling campaigns and lead qualification strategies targeting overseas commercial accounts.
- Delivered customized service proposals and handled negotiation objections to surpass quarterly revenue goals.

International Sales Executive
MAR 2021 – JAN 2022

MadAlpha | Karachi, Pakistan

- Pitched tailored digital services and freelance solutions to B2B and B2C clients across North American markets.
- Maintained CRM client funnels, pipeline tracking, and customer lifecycle management to drive repeat business.

03. KEY ACADEMIC & APPLIED PROJECTS

Object-Oriented Programming & DSA Systems Implementation

University Practical Coursework (C++ / Java)

- Engineered modular applications leveraging core OOP principles (Inheritance, Polymorphism, Encapsulation).
- Designed dynamic data structures (Linked Lists, Trees, Graphs, Hash Tables) for efficient memory & time complexity.

Database Management & Relational Schema Design

Relational DBMS Project (SQL / MySQL)

- Constructed normalized relational database schemas, complex join queries, stored procedures, and ER diagrams.
