ZAHRA BATOOL

WEB DEVELOPER & GRAPHIC DESIGNER

Faisalabad, Pakistan | 0325-0371195 | theirzarajafar@gmail.com | github.com/zara-dev-prog | canva.link/zahra-portfolio

SUMMARY

Web Developer & Graphic Designer with 2+ years building full-stack websites (Flask, React, SQL) and client-ready brand identities. Currently completing Full-Stack Development internships (DevByte, EziTech, ARCH Technologies) covering React state management, Context API, and Next.js routing. Founder of PixelSwift.pk, delivering end-to-end web and design projects for small business and e-commerce clients.

TECHNICAL SKILLS

- Languages & Frameworks: Python (OOP), JavaScript, HTML/CSS, Flask, React (components, props, state, Context API, hooks), Next.js (routing, static export)
- Databases: SQLite, MySQL
- Security Fundamentals: AES-256, JWT, two-factor authentication
- Design Tools: Adobe Illustrator, Photoshop, Figma, Canva
- Version Control & Tools: Git, GitHub

EXPERIENCE

Full-Stack Development Intern | DevByte / EziTech / ARCH Technologies *2026 – Present*

- Built React components using props, useState hooks, and PropTypes validation (UserCard component project)
- Developed a React Context API application ("LUXE.") implementing global theme and cart state across a multi-page product listing app
- Built a dynamic JavaScript to-do application with localStorage persistence, category filters, and custom tagging
- Working with Next.js dynamic routing, server-side data fetching, and static exports for multi-page apps

Founder / Freelance Web Developer & Graphic Designer | PixelSwift.pk *2023 – Present*

- Design and build complete websites end-to-end (Flask backend + custom front-end) and brand identities for small business and e-commerce clients
- Manage the full project lifecycle independently — client briefing, scoping, delivery, and revisions
- Built and grew a freelance brand presence on Fiverr and Instagram, establishing a project portfolio and structured pricing

Junior Graphic Designer | INNOSOFT Works *Dec 2024 – Mar 2026*

- Created and revised branding and marketing designs based on client and team feedback
- Collaborated with cross-functional teams to align design output with brand guidelines and project timelines
- Reduced design turnaround time by introducing structured feedback and revision cycles

PROJECTS

Alice Thread — *Flask, SQLite, HTML/CSS/JS*

- Full-stack men's e-commerce site rebuilt from scratch with a structured 5-day build-and-deploy cycle (setup, backend, frontend, integration, deployment)

Dusk & Dine — *Flask, Three.js, GSAP*

- Premium restaurant website featuring animated interactions and a custom light luxury (cream/gold) design system

Encrypted Data Storage System (EDSS) — *Flask, SQLite, AES-256-CBC, PBKDF2, JWT*

- Built a secure file storage system implementing encrypted storage, password-based key derivation, and JWT authentication; documented with a full SRS (Spiral Model) and research paper

EDUCATION

BS Computer Science — GC University Faisalabad

2024 – Present | CGPA: 3.56
