AROOJ FATIMA

Content Creator | B2B SaaS & Technical Content Writer | AI Voice & Call-Center Content

Lahore, Pakistan | [fatmaarooj04@gmail.com] | [03241172838] | [LinkedIn URL] | **[Portfolio / Writing Samples URL]**

PROFESSIONAL SUMMARY

Content Creator and Technical Content Writer experienced in turning complex, technical product features into clear, operator-friendly explanations for B2B and SaaS audiences. Comfortable researching unfamiliar technical topics — including AI, automation, and call-center workflows — and converting them into blog posts, LinkedIn copy, short-form social content, and video/carousel scripts. Fast at iterating from editorial feedback while maintaining a consistent brand voice across formats. Currently pursuing a Software Engineering degree, giving hands-on technical fluency that supports accurate, well-researched writing about software, APIs, and AI voice products.

CORE SKILLS

Content Writing · Blog Writing · LinkedIn Copywriting · Social Media Copywriting · Short-Form Content · Video Script Writing · Carousel Script Writing · B2B Content · SaaS Content · Technical Content Writing · Content Research · AI Voice Technology Content · Call-Center Technology Content · Product-to-Plain-Language Communication · Brand Voice & Tone · Editorial Feedback & Iteration · Audience-Focused Writing · Storytelling · Copywriting · Content Ideation · Canva · Microsoft Office · AI Writing & Research Tools

CONTENT & WRITING EXPERIENCE

Content Writer | *Independent & Academic Projects, Lahore, Pakistan*

- Wrote blog-style and social content explaining technology, AI, and software concepts in plain language for non-technical readers — directly transferable to turning an AI voice product into operator-friendly explanations for call-center buyers.
- Produced LinkedIn copy, short-form social posts, and content ideation for professional and B2B-style audiences, maintaining a consistent brand voice across pieces.
- Researched unfamiliar technical topics before writing to ensure accuracy and relevance — the same research habit needed for dialer, call-center, and AI voice subject matter.
- Iterated content quickly based on editorial feedback, refining tone, structure, and clarity across revisions.
- Used AI-assisted research and writing tools for brainstorming, drafting support, and editing, while keeping final copy human-reviewed.
- Developed clear product and project descriptions for technology and software work, translating technical functionality into reader-friendly copy.

Writing Contributor | *University Publication & Writing Competitions, University of Lahore*

- Contributed written work to university publication initiatives and competitive writing events.
- Developed original written pieces for academic and public-facing audiences, strengthening research and storytelling skills.

Essay Writing Competitions | *KIPS College* 2018 – 2019

- Won 1st Prize in Essay Writing in 2018 and 2019; also participated in debates and communication-focused competitions.
- Built the ability to communicate ideas clearly under deadline pressure and adapt messaging for different audiences — useful for fast-turnaround content requests.

PROFESSIONAL EXPERIENCE

IT Intern | *Nishat Mills Limited, Lahore, Pakistan*

- Worked within a professional IT environment, building familiarity with business and technology workflows in a large organization.
- Communicated technical information in a structured, easy-to-follow manner across teams.
- Strengthened research, documentation, and problem-solving skills relevant to fast-moving technical products.

TECHNICAL BACKGROUND

Bachelor of Science in Software Engineering (in progress), University of Lahore. Working knowledge of React.js, JavaScript, Python, Django, REST APIs, JSON, HTML, CSS, and databases — enough to understand and accurately write about software products, APIs, and AI voice / automation tools without needing a technical translator.

EDUCATION

Bachelor of Science in Software Engineering | *University of Lahore, Lahore, Pakistan* In Progress

ACHIEVEMENTS

- 1st Prize — Essay Writing Competition, 2018
- 1st Prize — Essay Writing Competition, 2019
- Published written work through university publication initiatives
