PROFESSIONAL SUMMARY

Unity Game Developer and UI/UX Designer with a BS in Computer Games Development (2026) and hands-on experience building VR games, multiplayer systems, and Figma-based interface design. Skilled in Unity (2D & 3D), C# programming, gameplay mechanics, AI systems (FSM, NavMesh), networking (Photon), and UI/UX design, demonstrated through the Schizo Shadows VR horror project and multiple published game and design prototypes. Brings professional experience as a Game Development Intern at Gameotivity and leadership experience coordinating creative teams and events. Combines technical game development, UI/UX design, database and project-planning tools (SQL, Primavera P6), video editing, and design skills to contribute to immersive gameplay, interactive applications, and visual media, and is now seeking Unity Developer, Game Designer, and UI/UX Designer roles internationally, including in the UAE and Saudi Arabia.

SKILLS

Programming & Databases: C#, C++, Python, SQL, Database Management (SQL)

Game Engines & Frameworks: Unity 2D/3D, Unreal Engine, XR Interaction Toolkit, Photon Networking

Game Development: Gameplay Mechanics, FSM & NavMesh AI Systems, Level Design, Physics Systems, Debugging & Optimization

Design & Graphics: Blender (3D Modeling & Animation), Adobe Photoshop, Illustrator, After Effects, InDesign, XD, Video Editing

UI/UX & Visual Design: Figma, User Research, Wireframing & Prototyping, Character & Environment Design, Storyboarding, Logo Design

Project & Data Tools: Primavera P6, Jira, Trello, Git, Microsoft Office Suite (Word, Excel, PowerPoint, Visio)

Professional Skills: Team Collaboration, Leadership & Event Coordination, Time Management, Analytical Thinking, Communication

PROFESSIONAL EXPERIENCE

Game Development Intern *Jun 2024 – Sep 2024*

Gameotivity, Islamabad, PK

- Developed a multiplayer action game, "Fire and Blood," using Unity Engine and C# programming.
- Designed and implemented core game mechanics, player interactions, and networking architecture.
- Collaborated with cross-functional teams to deliver game features within sprint deadlines.
- Gained hands-on experience in game optimization, debugging, and version control using Git.

Private Tutor *Oct 2022 – Jun 2026*

FBISE and O/A Levels, Islamabad, PK

- Provided personalized tutoring in science subjects for secondary and higher secondary students.
- Developed customized learning materials and assessment strategies for diverse learning needs.

FINAL YEAR PROJECT

Schizo Shadows | VR Psychological Horror Game *Sep 2024 – Jun 2026*

Unity 3D | C# | XR Interaction Toolkit | NavMesh AI

- Developed an immersive VR horror experience exploring themes of schizophrenia and psychological trauma.
- Implemented advanced ghost AI using Finite State Machine (FSM) architecture with hunting, searching, and wandering behaviors.
- Designed and integrated a sanity system affecting gameplay mechanics and triggering dynamic horror events.
- Created atmospheric horror elements including jump scares, flickering lights, and spatial audio.

- Built escape room mechanics with interactive doors, keys, and environmental puzzles.
- Utilized NavMesh pathfinding for intelligent enemy navigation and safe room mechanics.

PROJECTS

Multiplayer Car Racing Game *Apr 2024 – Jun 2024*

Unity | Photon PUN 2 | Computer Networks

- Developed a real-time multiplayer racing game with synchronized player positions and game states.
- Implemented network latency compensation and lobby management systems.

Car Animation VFX *Dec 2024 – Jan 2025*

Blender | Adobe After Effects | Video Editing

- Created a 3D car model with detailed texturing and rigging in Blender.
- Produced a cinematic animation sequence with visual effects compositing and video editing.

Japanese Samurai Storyboard *Nov 2024 – Jan 2025*

Digital Art | Narrative Design

- Illustrated a comprehensive digital storyboard for a narrative-driven game concept.
- Developed character designs, scene compositions, and visual storytelling elements.

Pakistan Railway Mobile App UI/UX *Oct 2023 – Jan 2024*

Figma | User Research

- Designed a complete user interface and user experience for a railway booking application.
- Created an interactive prototype with user flow diagrams and usability testing documentation.

EDUCATION

Air University, Islamabad, PK *Sep 2022 – Jun 2026*

Bachelor of Science in Computer Games Development (BSCGD)

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Head of Decor Team *Sep 2023 – Jun 2026*

Air University Cultural and Art Society

- Led planning and execution of event themes, stage setups, and visual ambiance for university-wide cultural events.
- Coordinated with multiple departments to ensure visual coherence and timely delivery of decoration concepts.

Graphic Designer – Media Team *Sep 2023 – Jun 2026*

Air University Cultural and Art Society

- Designed promotional materials, social media graphics, and event branding for society activities.
- Created visual content maintaining consistent brand identity across all communication channels.
