PROFILE

Fourth-semester BSc Computer Science undergraduate at the University of Chakwal with hands-on experience building web and AI-enabled applications. CareerLens AI, an AI-assisted CV analysis tool, led me to think beyond whether a system works toward whether its outputs are fair, explainable, and accountable when applied to people. I am currently a Web Development Intern at Crixsoft Solution and previously worked as a Front-End AI Engineering Intern at FlyRank AI. I am increasingly interested in how technical systems, records, and procedures shape real decisions.

EDUCATION

BSc Computer Science | University of Chakwal

March 2024 – August 2028 (expected) | Chakwal, Pakistan

CGPA: 3.4 / 4.0 | Current: 4th semester |

Relevant coursework: Programming Fundamentals, C/C++, Data Structures, Algorithms, DBMS, SQL/MySQL, Operating Systems, Computer Networks, software and web development.

EXPERIENCE

Web Development Intern | Crixsoft Solution

July 2026 – Present | Remote, Pakistan

- Contribute to real-world web development work, building responsive user-facing interfaces and improving existing code.
- Diagnose and fix defects in existing code, building practical debugging and problem-solving experience.

Front-End AI Engineering Intern | FlyRank AI

June 2026 – July 2026 | Remote, Pakistan

- Built responsive web interfaces with HTML, CSS and JavaScript using modern frontend tooling.
- Worked with AI-assisted development workflows, gaining direct exposure to how AI tools are used inside an engineering process.

SELECTED TECHNICAL PROJECTS

CareerLens AI | AI-powered career readiness tool

Individual project

- Built a browser-based CV analysis application that accepts PDF, DOCX or TXT resumes and compares them with job descriptions to produce match, ATS-style and quality scores.
- Integrated the Gemini API as the analysis layer; implemented runtime model discovery rather than hard-coding a single model endpoint.
- Added skill-gap analysis and prioritisation, personalised learning-roadmap generation, PDF export and history tracking.
- Implemented document parsing with PDF.js/Mammoth.js, result visualisation with Chart.js, and local persistence with localStorage.
- Reflection: building a system that evaluates people's CVs exposed how difficult fairness and explainability are to verify, starting my interest in algorithmic accountability and human oversight.

IntelliWaste | Smart waste collection tracking system

April 2026 – Present

- Built a small-scale digital replacement for paper-based collection records using PHP, MySQL, JavaScript and CSS.
- Implemented CRUD workflows for workers, drivers, bins and routes, with an administrative dashboard for collection statistics and charts.
- Added collection-status tracking, bin fill levels, automated alerts and urgent notifications for full bins, missed collections and outstanding tasks.
- Built user registration/login and an automatic notification workflow, illustrating how operational rules become embedded in administrative software.

SELECTED CERTIFICATIONS & TRAINING

AI For Everyone — DeepLearning.AI (Jul 2025) | Data Science — IBM (Aug 2025) | Python for Data Science and AI — IBM | CS50x — Harvard

Crash Course on Python — Google (Aug 2025) | Introduction to Cybersecurity — Cisco (Jul 2025) | Technical Support Fundamentals — Google (Jul 2025) | JavaScript Fundamentals — LearnKartS (Jun 2026)

TECHNICAL SKILLS

Languages: JavaScript, Python, PHP, C, C++, SQL, HTML5, CSS3
AI & Data: Gemini API integration, AI application development, generative AI fundamentals, data visualisation
Tools & Frameworks: React, Node.js, MongoDB, MySQL, Git, GitHub, Figma, PDF.js, Mammoth.js, Chart.js
CS & Frontend: Data Structures, Algorithms, DBMS, Operating Systems, Networks, Responsive Design, Flexbox, CSS Grid, DOM, API integration, UI/UX

ACHIEVEMENTS & ACTIVITIES

- International Computer Science Competition (ICSC) 2026, Qualification Round participant; received a special honour for a code submission that passed all test cases.
- Hackathon participant; coding/programming and UI/UX/web design activities at University of Chakwal.
- Debating, football and cricket.
