UX/UI DESIGNER | ANALYTICS-DRIVEN DESIGN | PROTOTYPING | TECHNICAL RECRUITMENT

Emerging UX/UI Designer, Project Manager, and Technical Recruitment Contributor with hands-on experience in product design, UX research, analytics-driven decision making, and building high-performing technology teams. Google UX Design Certified with proven experience collaborating with and helping recruit frontend developers, backend engineers, UX designers, and cross-functional product talent. Strong leadership background in tech communities, combining user-centered design, project coordination, and talent acquisition to support successful product delivery.

WORK EXPERIENCE

Vettio (Pvt.) Ltd. – Karachi [Final Year Project – Vocalent | vettio.com] 06/2025 – 07/2026
UI/UX DESIGNER & PROJECT MANAGEMENT ASSOCIATE

- Led end-to-end UI/UX design, user flows, and project coordination for Vocalent; ensured design-to-development handoff quality and consistency.
- Conducted UX research and iterative usability reviews; translated findings into refined product experiences aligned with the Vocalent vision.
- Supported team growth by identifying, screening, and onboarding frontend developers, backend developers, and UX designers to build a high-performing cross-functional product team.

Stoxlo.io – Karachi, Pakistan (Remote) [PSX-Based Startup | stoxlo.io] 04/2026 – 05/2026
UI/UX DESIGN INTERN

- Designed end-to-end UX/UI flows, wireframes, and prototypes; maintained design system and collaborated with developers for smooth handoff. Also, assisted in recruiting and evaluating frontend developers, and design talent, contributing to team expansion and project delivery capabilities.

Disrupt.com – Karachi, Pakistan 07/2025 – 09/2025
UI/UX DESIGN INTERN

- Designed wireframes, mockups, and prototypes; built scalable design system components and improved quality through UX reviews.
- Collaborated with engineering and product teams to maintain design consistency across web interfaces.
- Participated in sourcing and interviewing technical and design candidates, helping assemble multidisciplinary teams for ongoing product initiatives.

GAOTek Inc. – Toronto, Canada (Remote) 07/2024 – 09/2024
AI CONTENT & PRODUCT INTERN

- Completed AI training tasks, technical writing, and prompt-engineering for internal products and UX strategies.

Google Developer Student Club (GDSC) – IoBM, Karachi 12/2023 – 2025
PRESIDENT

- Led Google's official student tech community; organized hackathons, workshops, and managed cross-functional teams.

PRODUCT ANALYTICS (POSTHOG)

- Built funnels, heatmaps, scroll maps, rage clicks, and dead click analysis; tracked events and user paths via PostHog to guide redesigns and product decisions.

EDUCATION & CERTIFICATIONS

Institute of Business Management (IoBM) – Karachi, Pakistan 2022 – 2026
BS – Software Engineering

Google UX Design Professional Certificate 07/2024 – 09/2024
15-module certification; 4 UX case studies (Figma/FigJam); UX research, prototyping, usability testing, accessibility.

Aga Khan Higher Secondary School 2020 – 2022
HSC – Pre-Engineering

PROFESSIONAL & VOLUNTEER SUMMARY

- Skilled in wireframing, prototyping, UX research, design systems, and behavior analytics using Figma, PostHog, Miro, and Google Analytics.
- Experienced in funnel tracking, behavior analysis, and iterative problem-solving within agile workflows.
- Led GDSC IoBM as President; organized hackathons, mentored students, and managed multidisciplinary tech teams.
