Professional Summary

Motivated and detail-oriented Software Engineering undergraduate at Jinnah University for Women with a strong interest in technology, problem-solving, and continuous learning. Possesses excellent communication, teamwork, and organizational skills developed through academic projects and volunteer experience. Eager to apply technical knowledge and gain practical industry experience through internship opportunities while contributing positively to organizational goals.

Skills

- Microsoft Office (Word, Excel, PowerPoint)
- Communication Skills
- Teamwork & Collaboration
- Problem-Solving
- Time Management
- Presentation Skills
- Organizational Skills
- Adaptability & Quick Learning
- Basic Python Programming
- Database Management Fundamentals
- Object-Oriented Programming (OOP)

Education

Bachelor of Science (BS) in Software Engineering
Jinnah University for Women
Currently Enrolled (4th Semester)

Academic Projects

Python Project

- Developed a Python-based application to strengthen programming and logical problem-solving skills.
- Applied programming concepts including functions, loops, and data structures.

Database Management System (DBMS) Project

- Designed and implemented a database system using database design principles.
- Created tables, relationships, and queries for efficient data management.

Object-Oriented Programming (OOP) Project

- Developed a project using object-oriented concepts such as classes, objects, inheritance, and encapsulation.
- Improved understanding of software design and code organization.

Volunteer Experience

Volunteer – JTech, Jinnah University for Women

- Volunteered at JTech, the flagship and largest event of Jinnah University for Women.
- Assisted in event coordination and management activities.
- Collaborated with team members to ensure smooth event operations.
- Demonstrated teamwork, communication, and organizational skills in a fast-paced environment.

Certifications

Crash Course on Python

Coursera

- Completed foundational training in Python programming.
- Learned programming fundamentals, data structures, functions, and problem-solving techniques.
