ABOUT ME

Creative and detail-oriented Information Technology graduate with a strong interest in UI/UX design and user-centered digital experiences. Skilled in designing wireframes, interactive prototypes, and responsive interfaces using Figma. Passionate about solving user problems through intuitive design and continuously learning modern design trends and best practices. Seeking a UI/UX Design Internship where I can contribute, grow, and gain hands-on industry experience.

PROJECTS

Mobile App UI Design – Food Delivery Application

- Designed clean and user-friendly mobile screens using Figma
- Created wireframes, user flows, and high-fidelity UI designs.
- Focused on improving navigation and user experience.
- Applied responsive design principles for different screen sizes.

E-Commerce Website UI Design

- Designed a modern and responsive web interface.
- Created reusable UI components to maintain design consistency.
- Developed interactive prototypes for user testing.
- Improved usability through simple and intuitive layouts.

Budget Wise — Personal Budgeting Application

- Designed a budgeting application for young professionals focused on simple expense tracking and budget management.
- Defined a target persona and problem statement based on common budgeting challenges.
- Created the primary user flow from onboarding to adding an expense and reviewing budget summaries.
- Designed low-fidelity wireframes and high-fidelity interfaces for core application screens.
