PROFILE

Motivated IT undergraduate passionate about web development, UI/UX design and Generative AI. Strong communicator and fast learner, eager to apply technical skills professionally.

TECHNICAL SKILLS

- UI/UX Design
- HTML & Web Development
- Generative AI (GenAI)
- Problem Solving
- Multitasking
- Communication Skills

LANGUAGES

English

Urdu

INTERESTS

- UI/UX Exploration
- Coding & Programming
- Learning New Tech
- Problem Solving

EDUCATION

National University of Modern Languages (NUML), Islamabad **2025 – 2029**

BS – Information Technology

Currently enrolled in BS-IT, building strong foundations in software development, networking, database systems, and emerging technologies. Developing technical, communication, and problem-solving skills through coursework and academic projects.

Global College, Rawalpindi **2023 – 2025**

Intermediate – Pre-Engineering (FSc)

Completed FSc Pre-Engineering with strong command of Mathematics, Physics, and Chemistry. Demonstrated excellent analytical ability and a problem-solving mindset suited for technical environments.

Global School of Sciences, Rawalpindi **2021 – 2023**

Matriculation – Science (Medical Stream)

Completed Matric in the Medical (Science) stream with knowledge in Biology, Chemistry, and Physics. Developed strong observational, analytical, and laboratory skills.

CORE COMPETENCIES

- Web Development (HTML, CSS fundamentals)
- UI/UX Design & user-centered design thinking
- Generative AI tools and practical applications
- Analytical thinking and data interpretation
- Effective verbal and written communication
- Time management and organizational skills
- Collaborative teamwork and coordination
- Quick adaptability to new technologies

CAREER OBJECTIVE

To secure an entry-level position in the IT or design industry where I can leverage my academic background in Information Technology, UI/UX design skills, and enthusiasm for Generative AI to contribute meaningfully to innovative projects, while continuously growing as a technology professional.

KEY STRENGTHS

Fast Learner: Quickly adapts to new tools, frameworks and technologies.

Problem Solver: Approaches challenges analytically with logical, creative solutions.

Detail-Oriented: Pays close attention to design quality and technical accuracy.

Team Player: Works effectively in group settings with strong interpersonal skills.
