SAIRA SHAIKH

Software Engineer

92 332 3251178 | shyksaira26@gmail.com | linkedin.com/in/saira2004 | G Johar Block 1, Karachi

SUMMARY

A dynamic Software Engineer with expertise in front-end and cross-platform mobile development. Skilled in leveraging Flutter, Next.js, and React to craft effective and visually appealing solutions. Committed to continuous learning and applying a strong focus on UI/UX to every project.

EXPERIENCE

Software Engineering Intern

Pak Arab Refinery PARCO

06/2025 - 08/2025

Activities

- Designed and developed three user interfaces for internal applications using Figma, significantly improving user experience and accessibility.
- Created multiple flyers and marketing materials, enhancing the visual communication of the IT department.
- Developed a Power App to streamline the management of other internal Power Apps, increasing departmental efficiency and control.

Web Development Intern

Codsoft

10/2023 - 11/2023

Activities

- Engaged in hands-on projects and tasks under the guidance of senior developers, enhancing skills in HTML, CSS, JavaScript, and other relevant technologies
- Collaborated with team members to troubleshoot issues, debug code, and optimize website performance
- Demonstrated strong problem-solving abilities and adaptability in a fast-paced virtual environment

Front-end Intern

360Expert'sSolution

10/2024 - 11/2024

Activities

- Built frontend pages for Xpert-Assistant using Next.js, a web application designed to assess resumes against job requirements
- Developed the user interface for Virtual Islamic Banking using React, focusing on a modern, responsive design
- Created another frontend project using TypeScript and Ant Design, implementing interactive graphs and dashboard components

EDUCATION

Bachelors in Software Engineering

NED University of Engineering & Technology

10/2022 - Present | Karachi | CGPA: 3.513

Army Public School & College

08/2022 - 08/2022 | Sukkur | Percentage: 88%

Matric Science

Army Public School & College

07/2020 - 07/2020 | Sukkur | Percentage: 87.62%

SKILLS

Flutter | React | Next.js | HTML | CSS | JavaScript | TypeScript | Python | Firebase | MySQL

PROJECTS

ChitChatz

ChitChatz is a cross-platform messaging app built with Flutter, offering a seamless real-time experience for text and image exchange. It features a secure back end with FastAPI and Firebase, Google-based authentication, and efficient image handling via ImageKit. Users can also update and edit their profile pictures.

ForeWell

Developed a mental wellness app using Flutter and Firebase, featuring a chatbot for stress and anxiety support, guided meditation videos, and a music player to enhance relaxation and emotional well-being.

QuizBuzz

Created a Python-based quiz application with three genres General Knowledge, IQ, Riddles), each featuring 10 multiple-choice questions and user-friendly interface.

Air Reservation System

Designed a console-based flight reservation system in C using object-oriented concepts for booking tickets and viewing available flights.

Ecommerce Website

Developed a 4-page e-commerce website Home, About, Contact, Cart) using HTML, CSS, and JavaScript to sell frocks and maxies, allowing users to add items to their cart and make purchases.

Music App

Developed a web-based music player using HTML5, CSS3, and JavaScript, providing users with a comprehensive interface to manage and control song playback, including features for skipping tracks and navigating playlists.
