ABOUT ME

I'm a computer science graduate with a strong passion for creating innovative software solutions. My education has equipped me with a solid foundation, and I'm dedicated to designing software that addresses real-world challenges, enhances user experiences, and streamlines processes. I'm committed to ongoing learning and staying at the forefront of technology to contribute meaningfully to the field

EDUCATION AND TRAINING

28/09/2017 – 28/09/2021 Mardan, Pakistan

BS COMPUTER SCIENCE Abdul Wali Khan University Mardan

- **Relevant coursework:** Data Structures & Algorithms, Database Systems, Operating Systems, Machine Learning, Artificial Intelligence, Computer Networks.
- **Final Year Project:** Designed and developed "Freshees," a dynamic online food ordering website using PHP, HTML, and CSS, focusing on responsive design and an efficient user experience.

WORK EXPERIENCE

DATA ANALYST – RRUUST COMMUNICATION ISLAMABAD – 01/03/2023 – 15/07/2024 – ISLAMABAD, PAKISTAN

- Collected, cleaned, and analyzed datasets to support business decision-making and reporting.
- Built and maintained data pipelines and dashboards to track key performance metrics.
- Used SQL and Python to query, process, and visualize data for stakeholders.

WEB & GRAPHIC DESIGNER – FOCUS FINANCIAL AND TAX CONSULTANTS ISLAMABAD – 01/04/2022 – 15/03/2023 – ISLAMABAD, PAKISTAN

- Designed and developed responsive company web pages using JavaScript, HTML, and CSS.
- Created visual and graphic content for branding and digital communication.
- Collaborated with the team to improve user experience and site functionality.

PROJECTS

Freshees

- Designed and developed "Freshees," a dynamic online food-ordering platform using PHP, HTML, and CSS, with a user-friendly web interface.
- Implemented functionalities such as user authentication, menu management, shopping cart, and order processing to streamline the online ordering experience.
- Developed a structured backend with database integration for efficient management of customer information, food items, and order records.

Emotion-Aware Productivity Workspace

- Developed an Emotion-Aware Productivity Workspace that adapts the user interface based on fatigue and user behavior to enhance focus and productivity.
- Integrated features including focus timers, stress assessment, break recommendations, and adaptive interface customization for an improved user experience.
- Applied Human Computer Interaction (HCI) principles to evaluate the impact of adaptive interfaces on user engagement, cognitive workload, and productivity.
