PROFESSIONAL SUMMARY

Final-year Computer Science student at FAST-NUCES with a focus on UI/UX design and frontend interface development. I have practical experience in designing app navigation and optimizing user experiences for mobile platforms using Flutter and Kotlin, along with a foundational understanding of React. My recent work includes building the frontend and training the AI model for the 'Zaiqa' cooking assistant. With additional skills in content writing and digital marketing, I am dedicated to creating clean, intuitive interfaces and improving app performance through thoughtful, user-centric design.

TECHNICAL SKILLS

UI/UX & Management: Agile/Scrum, Jira, App Wireframing, Figma, Canva.
Frontend & Mobile: Kotlin (Core), Flutter(Beginner-level), HTML5, CSS3, React, Next.js, JavaFX.
Programming & AI: Python, Java, C++, Assembly, BERT (Model Training), Prompt Engineering.
Tools & Database: SQL Server, PostgreSQL, Git, Android Studio, SEO, Project Documentation.

PROJECT EXPERIENCE

Zaiqa – AI-Based Cooking Assistant (Final Year Project)

- Developed a Kotlin-based mobile interface with localized navigation flows tailored specifically for Pakistani household users.
- Integrated an AI ingredient recommendation model and engineered the frontend logic to ensure a high-performance user experience.

Priority Guard - Project Manager (MVP)

- Managed the end-to-end product lifecycle for an AI productivity MVP, coordinating UI/UX design tokens and backend API Route deployment.
- Directed the integration of Voice AI Chatbots and Google Calendar APIs to automate task extraction and platform synchronization.

Student Attendance Management System (JavaFX & SQL)

- Developed a desktop application featuring a clean visual hierarchy and intuitive GUI navigation for real-time tracking.
- Implemented an interactive reporting dashboard using data visualization to track and display student attendance trends.

Micro-Lending & Item Exchange System - Lead UI Developer

- Applied UX design principles to simplify complex lending workflows and integrated SQL Server for real-time transaction history.
- Built a high-fidelity Java prototype focusing on efficient data handling and reducing friction for non-technical users.

PROFESSIONAL EXPERIENCE

Software House - Frontend & UI Developer Intern - Remote

- Optimized the UI/UX for a nutrition platform and refined the architecture of a Chat AI Assistant to improve visual consistency.
- Managed app version updates and performance optimization to ensure high responsiveness across diverse mobile devices.

Software Company - Post Designer & Reel Editor - Remote

- Designing high-engagement social media graphics and producing short-form video content to increase brand visibility.
- Acting as a creative lead for digital assets, ensuring materials align with modern design trends and brand identity.

EDUCATION

FAST National University of Computer and Emerging Sciences, Islamabad
Bachelor of Science in Computer Science (2022-2026)

INTERESTS

AI Exploration: Experimenting with Prompt Engineering to optimize LLM outputs and AI interactions.
UI/UX Trends: Self-learning modern design trends and documenting mobile interface case studies.
Hobbies: Calligraphy, Technical Writing, and Creative Problem Solving.
