- Work Experience

Monitoring & Evaluation Intern| Election Commission of Pakistan| Aug 2025 – Sep 2025

- Supported Project implementation and field monitoring activities during Local Government By-Elections Project in Sindh, ensuring alignment with operational plans and assigned timelines.
- Assisted in monitoring, evaluation, and learning (MEL) activities, including field data collection, and documentation of results of election processes across multiple polling stations.
- Coordinated with field teams to support smooth execution of election-day operations, ensuring timely communication and collaboration.
- Engaged with multiple stakeholders including polling staff, candidates and field officials to assess compliance with electoral procedures and operational guidelines.

- Contributed to tracking and reporting of field activities, supporting preparation of structured summaries and observational reports for internal review.
- Maintained databases, records, and documentation of this project's activities.

- Strengthened skills in analysis, reporting, teamwork, and communication through active participation in cross-functional tasks.

HR-Assistant (Remote)| GAO Teck Inc. USA| April 2021 – Oct 2021

I have worked as an HR assistant in the GAO Teck Inc. USA, which is leading US based supplier of test and measurement equipment for fibre optics, telecommunications, and other measuring instruments. During my time, my basic tasks included hiring, selection of candidates, and their management during their time period.

Roles and Responsibilities

The overall contribution included:

- Executed and managed the complete recruitment process including job postings on various platforms, CV screening, interview scheduling, candidate management during entire process and final selection.

- Evaluated and interviewed 25+ candidates by assessing their skills and competencies.

- Shortlisted 20 candidates, and achieved 80% selection rate based on criteria for hiring

- Supported candidate onboarding and orientation after their selection

- Supervising the interns, and organizing training sessions during their internship period.

- Research Projects

- ***Bachelor's Thesis***

Impact of Talent Management on Job Satisfaction: Mediating role of Employer Branding GPA: 4.0/4.0

- ***Master's Thesis***

From People to Performance: How HR Management Activities drive Project Success under the Dual influence of HR Analytics and Artificial Intelligence GPA: 4.0/4.0

- ***Master's Project: Contractor Management Module, Nayatel***

Assisted in the coordination and documentation of Nayatel's Contractor Management Module (CMM), a centralized system developed to digitize paper-based civil work tracking across Civil, Pulling, Hanging and Cabling teams. Utilized Microsoft Project for task tracking, workflow organization, and monitoring project timelines to ensure timely delivery. Supported administrative coordination activities including SOP compliance, and project records management, and stakeholder's reports.
