Kareena Rajput,

Bachelors of Science in Computer Science

Kareenarajput240@gmail.com +923303941750 https://www.linkedin.com/in/kareena-rajput-a2169832a

Summary: Motivated BS Computer Science graduate with a solid foundation in programming, problem-solving, and software development. Passionate about leveraging technical knowledge to build efficient solutions and eager to contribute to innovative projects in a dynamic environment. Committed to continuous learning, professional growth, and making a meaningful impact through technology.

Skills:

Mobile Development, Android (APK build)
Languages & Frameworks, (Dart Flutter, Kotlin)
Familiar with Networking
C++
Object Oriented Programming
Database Management System
Microsoft Office
Power Point
Microsoft Excel

Education:

Bachelors of Science in Computer Science	***Institute:*** *SZABIST*	***Year:*** *2020:2025*
Advance Graphic Designing Course	***Institute:*** *Digital's Flare*	***Year:*** *2024*
Intermediate	***Institute:*** *Shaheen Public higher Secondary School*	***Year:*** *2020*

Projects:

- **Smart Home Automation System (Final Year Project):**

Developed a Smart Home Automation System Mobile application which incorporates several key features: the ability to add and view rooms and appliances, and control appliance power states. The system includes advanced consumption analytics with graphical representations of data by day, week, and month. Utilized MongoDB for reliable data storage and implemented backend functionalities using Node.js. Additionally, integrated a mobile application to enable remote control and management of the system's hardware components.

- **Cloud Server Deployment:**

Executed deployment on Google Cloud, configured PHP modules, MYSQL and APACHE2, ensuring security with firewall rules and a virtual host. Implemented a one page WordPress CV website, enhancing data protection through automated daily backups using cron jobs.

- **Network Infrastructure Implementation for SZABIST Karachi Campus:**

Designed and implemented a network infrastructure at SZABIST Karachi, optimizing IP pool usage with VLANs. Ensured efficient and secure communication through Inter-VLAN routing, DHCP servers, port security, NAT, ACLs and OSPF achieving seamless interconnectivity across branches with robust security measure.

- **Habit Tracker App with Streaks and Analysis:**

Developed a cross-platform mobile application for habit tracking with features including streak monitoring, weekly motivational summaries, persistent reminders via notifications, and light/dark mode support. Implemented Hive for local data storage and integrated interactive dashboards using charts for progress visualization.

Professional Experience

- **Flutter Developer – Intern:**

Description: Developed a Flutter-based mobile application to solve real-world problems. Gained experience in UI/UX design, data management, and agile development practices. Contributed to the full project lifecycle, from planning and design to final delivery and optimization - Rayonix Solutions July 2025 – September 2025

Certificates

Internship Certificate	***Institute****: Rayonix Solutions*	***Year of Achievement****: 2025*
Advanced Graphic Designing	***Institute:*** *Digital's Flare*	***Year of Achievement:*** *2024*
