TAJALLAH ZAKEEN

DATA SCIENTIST

jallahyousafzai27@gmail.com · +923475377748 · Swabi, Pakistan

linkedin.com/in/tajallah-zakeen | https://github.com/TajallahZakeen

PROFESSIONAL SUMMARY

Aspiring Data Scientist with expertise in Python, Machine Learning, Deep Learning, SQL, and Data Visualization. Skilled in building AI models, analyzing complex datasets, and developing data-driven solutions.Seeking an opportunity to apply analytical and problem-solving skills in a challenging role while contributing to organizational success.

EXPERIENCE

Sep 2025 – Present

AI/ML Project Developer (Final Year Project)

UET,PESHAWAR · PESHAWAR,PAKISTAN

- Developed an AI-powered dental caries detection system using deep learning.
- Collected, cleaned, and labeled medical image datasets.
- Trained and evaluated machine learning models using Python.
- Built data preprocessing and visualization pipelines.
- Collaborated with team members using Git and GitHub.
- Documented project results and prepared technical presentations.

Feb 2022 – Nov 2023

Content Writer / Article Writer (Remote)

Story.com.pk · Remote

- Wrote SEO-friendly articles and blog posts across multiple topics.
- Conducted online research to ensure content accuracy and credibility.
- Optimized content for readability and search engine performance (SEO).
- Communicated with clients to understand project requirements and deliver quality work.

EDUCATION

Oct 2022 – Jul 2026

Bachelor of Data Science

University of Engineering and Technology,Peshawar · Peshawar

SKILLS

Python,C++,Machine Learning,Deep Learning,Artificial Intelligence,Data Visualization,MySQL,GitHub,Matplotlib,Jupyter Notebook

Visual Studio Code,Jupyter Notebook,Google Colab,GitHub,MySQL Workbench,Microsoft Excel,Microsoft Word,Microsoft PowerPoint,Anaconda,PyCharm,Docker,FastAPI,LabelImg,Linux,Windows

Analytical Thinking,Problem Solving,Critical Thinking,Communication,Teamwork,Leadership,Time Management,Adaptability,Creativity,Decision,Making,Project Management,Research Skills,Presentation Skills,Collaboration,Fast Learner,Self-Motivation,Organization,Multitasking,Client Communication.

LANGUAGES

English (Professional) | **Urdu** (Native) | **Pashto** (Native)

PROJECTS

Jul 2026

DeepCariesScan – AI-Powered Dental Caries Detection System

Developed an AI-powered dental caries detection system using deep learning to identify and classify cavities from 2D dental X-ray images. Collected and labeled datasets, trained and evaluated machine learning models, and built an intuitive interface for automated diagnosis. Improved detection accuracy through image preprocessing, model optimization, and performance evaluation.

Tech: Python · YOLOv8 · TensorFlow · OpenCV · Roboflow · LabelImg · FastAPI · Streamlit · NumPy · Pandas · Git · GitHub

Dec 2025

LLM-Powered-Chatbot

LLM-powered ChatGPT-like chatbot built using FastAPI. The project integrates OpenAI GPT models to generate intelligent, context-aware responses through a web-based chat interface. It demonstrates full-stack development, REST APIs, and real-world application of Large Language Models.

Tech: Python · JavaScript · HTML · CSS
