EDUCATION

- Bachelor of Computer Science | **FAST - NUCES Islamabad** *(Aug '21 - Aug '25)*
- Intermediate (ICS) | Punjab Group of Colleges - Rawalpindi *(Jun '19 - Jun '21)*

SKILLS

- **Languages:** C, C++, HTML, CSS, JavaScript
- **Frameworks:** React.js, Node.js, Express.js, Bootstrap, Material-UI
- **Databases & Tools:** MongoDB, SQL (MySQL), Git, Linux, MS Word, MS Excel
- **Soft Skills:** Effective communication, problem solving, adaptability, teamwork, time management, analytical thinking, creativity, peer mentor

---

WORK EXPERIENCE

- **Full Stack Developer – Octaloop Technologies** *(Jul '25 - Present)*
  - Designing and developing scalable full-stack applications using React.js, Node.js, and Express.js.
  - Building RESTful APIs and integrating third-party services to enhance application functionality.
  - Managing MongoDB databases for optimized query performance and data integrity
  - Collaborating with cross-functional teams to ensure timely delivery of features and bug fixes.

- **Full Stack Developer (Intern) - DevelopersHub Corporation** *(Mar '25 - May '25)*
  - Building responsive UIs with React.js, developing RESTful APIs using Node.js and Express.js, managing MongoDB databases for performance and integrity, and troubleshooting issues to ensure a smooth and efficient user experience.

Teaching Experience

- **Subject Teacher – Sohail Educational Academy** *(June '23 - Dec '23)*
  - Taught Mathematics and Computer Science to grades 9–12. Delivered clear, engaging lessons and supported academic success in a positive classroom environment.
- **Subject Teacher – Spring Educational Academy** *(July '24 - Oct '24)*
  - Taught Mathematics and Computer Science to grades 9–12 with a focus on concept clarity, student support, and improved academic outcomes
- **Private Tutor – Home-based** *(June '23 - Present)*
  - Provide personalized tutoring for grades 9 and 10 in Mathematics and Computer Science. Focus on individual learning needs and consistent academic improvement.

PROJECTS

- **MUNCH – Food Recipe Website**
  - Developed a dynamic food recipe website with **React.js, Bootstrap, Node.js, Express.js, and MongoDB**, utilizing the **MVC architecture** to facilitate recipe addition, searching, and exploration by ingredients, time, and categories
  - Implemented key features like user authentication, recipe management, advanced search and filtering, ratings and reviews, meal planning, and social sharing for an enhanced user experience

- **WanderLust – Travel Listings Platform**
  - Designed and developed a full-stack travel listings platform using **HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, and EJS templates**, allowing users to add, update, and delete listings, as well as post reviews
  - Key features include user authentication, API integration, error handling, MVC architecture, and CRUD operations for efficient and scalable management of travel listings

- **Digital Wallet System**
  - Built a digital wallet system using **HTML, CSS, JavaScript,** and **Bootstrap,** enabling users to add funds, make purchases, and track transaction history for better financial management
  - Integrated dark/light mode for enhanced user experience and designed a user-friendly interface to ensure seamless interaction and accessibility

- **Shopping Store System**
  - Developed an Online Shopping Store System using **OOP principles** and **Binary File Handling** with **C++**, enabling efficient management of user interactions and data storage
  - Implemented three different user roles: **Customer** (for browsing and shopping), **Manager** (for inventory and catalog management), and **Admin** (for system administration), each with their own set of features to cater to different needs
