MUHAMMAD USAIM

Software Developer & DevOps Engineer

Karachi, Pakistan +92 324 2788466 Usaimkhan24@gmail.com github.com/muhammadusaim-tech

ABOUT ME

Dedicated and versatile Software Developer and Junior DevOps Engineer with hands-on experience across the full product lifecycle from customer-facing web applications to backend systems and robust deployment pipelines. Adept at bridging the gap between development and operations to build scalable systems, optimize software delivery, and automate infrastructure.

TECHNICAL SKILLS

- **DevOps & Cloud:** Docker | CI/CD Pipelines | Linux | Nginx | Jenkins | Azure | Git/GitHub
- **Backend:** ASP.NET Core | C# | Node.js | Express | REST APIs
- **Frontend:** React.js | Next.js | JavaScript | TypeScript | HTML5/CSS3 | Tailwind CSS | Bootstrap
- **Databases:** SQL Server | PostgreSQL | MongoDB

WORK EXPERIENCE

Junior DevOps Engineer **2024 – Present**

EOcean Private Limited

Managing CI/CD pipelines, container orchestration, and deployment automation. Responsible for maintaining robust server infrastructure, monitoring system health, and collaborating with cross-functional development teams to streamline software delivery processes and operational reliability.

Docker | CI/CD | Linux | Nginx | Git

Software Developer **2023 – 2024**

Dev Studio

Developed full-stack web applications utilizing ASP.NET Core and React. Collaborated closely on client-facing projects to deliver exceptionally responsive user interfaces and highly robust backend APIs while working within agile development workflows.

ASP.NET Core | React | SQL Server | REST APIs

Software Developer **2022 – 2023**

Fiztech

Engineered and maintained robust web applications for external clients using modern JavaScript frameworks and backend technologies. Gained comprehensive, hands-on experience covering the entire software engineering lifecycle from requirements gathering to system deployment.

JavaScript | Node.js | Web Development | APIs

American Website Sales Specialist **2023**

Telex Global

Managed American website sales operations, handling end-to-end client communications, technical project pitches, and closing deals for custom web development services targeting North American B2B markets.

Team Leader (Promoted from Calling Agent) **2021 – 2022**

Hello International

Excelled as a Customer Representative and earned an accelerated promotion to Team Leader. Supervised an active operations team, managed critical performance metrics, facilitated onboarding and training programs for new hires, and ensured stellar quality standards.

KEY PROJECTS

EMIJESTY (Fashion E-Commerce) **Live**

A full-featured fashion e-commerce storefront supporting dynamic product categorization (Men's, Women's, Jewelry, Perfumes), high-performance multi-banner sliders, seamless product listings, and dynamic testimonial layouts. Deployed live via Vercel pipeline.

Next.js | React | Vercel | CSS Modules

ShopNest - Full Stack Store **GitHub**

An enterprise-ready e-commerce system featuring granular product inventory management, secure shopping cart workflows, dynamic Stripe payment gateway integration, and an interactive vendor/admin dashboard.

ASP.NET Core | React | SQL Server | Stripe

PipelineX - CI/CD Automation **GitHub**

An automated, resilient deployment infrastructure engineered with Docker, Jenkins, and Nginx. Incorporates robust zero-downtime rolling upgrades, automated system health checks, and live Slack alert integrations.

Docker | Jenkins | Linux | Nginx

EDUCATION

DAE in Software Engineering **2024 – Ongoing**

Aligarh Institute of Technology

ASP.NET Professional Diploma **2021 – 2024**

Aptech Computer Education

Intermediate (Pre-Engineering) **2022 – 2024**

Gulshan College (Government)
