EDUCATION

Bachelor of Science in Cyber Security
Dawood University of Engineering and Technology (3.46)
10/2022 - 06/2026

Intermediate (Pre-Engineering)
DJ Government Science College (79%)
05/2020 - 05/2022

Matriculation (computer Science)
Metropolitan Academy (86%)
08/2017 - 04/2020

EXPERIENCE

Internship
National Center for Cyber Security (NCCS)
07/2025 - Present *Karachi, Pakistan*

Key Responsibilities

- Assisted in cybersecurity research and security assessment activities.
- Performed vulnerability assessments on network and web environments.
- Worked with cybersecurity tools for monitoring and log analysis.

Penetration Testing Intern (Remote)
DevelopersHub
08/2024 - 11/2024 *Islamabad, Pakistan Key Responsibilities*

- Conducted web application penetration testing to identify security vulnerabilities and misconfigurations.
- Utilized Burp Suite, Nmap, Linux, and other security tools during security assessments.
- Identified common web vulnerabilities including XSS, SQL injection, and authentication-related issues.

Dataminingsol.com(Present)
Working on datasets and advanced Excel for data analysis.

SKILLS

Cyber Security | Network Security | Web application Security | Digital Forensics | Vulnerability Assessment | Python,Linux | Burp Suite, Wireshark, Nmap | TCP/IP Networking

PROJECT

A Self-Adaptive AI-Driven Digital Forensics Framework for Email Phishing Investigation (01/2025 - Present)

- Developed AI-based phishing email detection and forensic analysis system Integrated phishing detection with evidence collection and reporting
- Applied digital forensic methods to trace email origins and threats

CERTIFICATES

CEH – Corvit Systems (08/2024 - 10/2024)

CCNA Training

CCNP Training

Cyber Security, CyberOps Training & AI Essentials – Coursera
